EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Kin-Wah Tong, applicant's representative on September 27, 2006.

The application has been amended as follows:

In the claims:

Claim 14: "said user preference query" at line 10 has been changed to "a user preference query"

Claim 16: "said user preference query" at line 12 has been changed to "a user preference query"

Allowable Subject Matter

2. Claims 1-19 are allowable.

Reason for allowance

3. The following is an examiner's statement of reasons for allowance:

Art Unit: 2168

4. The prior art of record fails to teach and/or suggest the combination of claimed elements of claims 1, 15 and 17, including "determining a dominating set of said ordered data entries; combined with "ordering and indexing said data entries according to a separating...". While the closest prior art of record (Chaudhuri et al.) teaches the method of automatically ranking database records by relevance to a given query, it does not teach the mapping of dominating set of ordered data entries according to rank attributes and the determining a separating vector for each set of adjacent mapped data entries.

5. The prior art of record fails to teach and/or suggest the combination of claimed elements of claims 14 and 16, "determining a dominating set of said ordered data entries; mapping said dominating set of ordered ... ", "ordering and indexing said data entries according to a separating..." combined with "Providing a solution for a user preference query using said ranked join index". While the closest prior art of record (Chaudhuri et al.) teaches the method of automatically ranking database records by relevance to a given query, it does not teach creating a ranked join index for said ranked data entries by determining a separating vector for each of said separating vectors.

After intensive search and a thorough examination of the present application and in light of the prior art made of record, claims 1-19 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
